

RoadMate - Weekly Report – Week 9

Group A

Summary

The primary focus of this week has been on the feature set of our final prototype. Specifically, brainstorming ideas and feasibility studies relating to their implementation.

Project Planning

As part of our project planning, the following was covered during this week:

- **Issue Tickets Updated**
Tickets in the issue tracking system have been updated to reflect the current state of the project. Those belonging to Prototype 2 have been closed.
- **New Spikes added to Google Groups Page**
New spikes have been added to our Google Groups page. These cover important feasibility studies for planned features.
- **Updated Gantt Chart**
The Gantt chart has been updated to reflect the current state of the project.

Development Process

As part of our development process, the following was covered during this week:

- **Research into JavaScript**
With a rough idea of what JavaScript components would be required in the final prototype, individual team members had been assigned to researching potential implementations.
- **Google Calendar Integration**
Basic Google Calendar integration has finished.
- **Tagged Prototype 2.0**
Prototype 2.0 is tagged under `/svn/tags/prototype-2.0`

Changes to Project Plan

None.

Obstacles

None.

References

- **Report 2**
Our second report is now in the repository and details the state of our project up-to our second prototype.
- **Gantt Chart**
An up-to-date Gantt chart is available in the repository.
- **Issue Tracking System**
[Active issues](#) and [feature sets](#) can be viewed from the project's Google Code site.
- **Meeting Agenda**
All details of past and upcoming meeting are documented in a meeting agenda available via Google Docs.
